Stars & Cards is about combining metaphysical arts. It's about self-discovery. And it's about tuning in and aligning with energy, inside and out. Most people can tell you 'what' is happening, but the real power is in understanding 'why' it's happening. Knowing more of the why brings compassion and guides you to new opportunities and better choices. It expands your whole view because you see beyond the surface. In these classes, we work with the tarot and its astrological correspondences to explore the what and why of life. From small to big things, this helps us live with more awareness and meaning.

In Stars & Cards, we learn about all 78 cards and practice working with them. Each tarot card is associated with an astrological signature. By exploring the tarot and astrology together, we come to a deeper understanding of life and all its mysteries. The minor arcana represents the outer mysteries of the world and reflects our relationship with our spirit, heart, mind, and body. More simply put, it reflects our day-to-day experiences, choices, feelings, thoughts, opportunities, and challenges. The major arcana represents the inner mysteries and reflects our relationship with our soul or deeper essence. It reveals our deeper desire for growth and evolution.
